BATTLESHIP CHRISTENED

NEW HAMPSHIRE A COMING "TERROR OF THE SEAS"

LAUNCHING HELD TO-DAY

Governor's Daughter Broke the Bottle of Champagne

(By Associated Press)

Camden N. J., June 30.—The new 16,000-ton battleship New Hampshire, built for the United States government by the New York Shipbuilding company, was successfully launched from the yards here today. Thousands cheered and waved their hats as the huge hull plowed into the waters of the Delaware. Among those who witnessed the spectacle were many distinguished citizens of New Hampshire, together with naval officers and representatives of the navy department at Washington. The guests of honor included Governor McLane of New Hampshire and his staff.

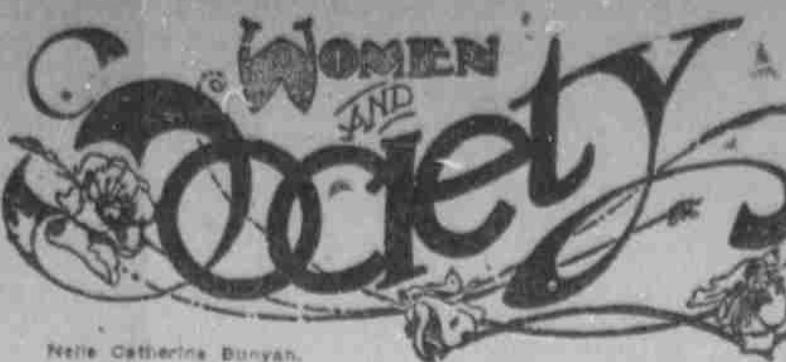

The vessel was christened by Miss Hazel McLane, the 18-year-old daughter of Governor McLane, who broke a bottle of champagne on the bow of the ship as it started down the ways. Informal speeches followed a luncheon.

The battleship New Hampshire will be a powerful addition to Uncle Sam's navy. She is of 16,000 tons burden, with a length of 450 feet and extreme breadth of 76 feet 10 inches. She will be required to steam 18 knots for four consecutive hours.

The main battery will consist of four 12-inch breech-loading rifles and twelve 7-inch breech-loading rifles. In the secondary battery will be twenty 3-inch rapid fire guns, twelve 3-pounder semi-automatics, four one-pounder semi-automatics, two 3-inch field guns, two 30-calibre automatics and two 30-calibre machine-guns.

The hull of the battleship is of steel throughout. It is protected at the waterline by a complete belt of armor nine feet three inches wide, having a maximum thickness of eleven inches for about 200 feet amidships. Forward and aft of this the maximum thickness is nine inches within the limits of magazines, from

Jones Finale.

This is the end of the best loved month for weddings. The wedding bells that everyone has heard, at least in print, have rung for the last of the gay procession of June brides. From now on society will devote its whole attention to the planning of where and how the summer months will be spent, in the costume manner possible.

There will be a veritable hegira of furtive folk to the mountains next month. Almost a colony of Capital City people will be established at Carney lake, Colorado. The Beldies have a pleasant cottage there, in a beautiful spot on the side of the lofty mountains, with the solace of the warm days they go and return until the delightful, refreshing coolness of the fall returns to balmy Oklahoma. The P. T. Waltons will also spend the summer at Carney lake with their children. They own a spacious cottage there and always entertain a few friends during the sojourn in the mountains.

Both parties leave the first of the week for cool Colorado. Many other families will depart by the fifteenth.

Not a few Guthrie people own comfortable suburban homes and spend the summer on the farm. At this season of the year the country is at its best. Cool, clear days following each other in brilliant red and gold beauty, and crisp country air whet healthy appetites for the hearty meals of fried chicken, cornpone and buttermilk set hospitably forth at farm houses.

The Lady Macabees Entertain.

The order of Lady Macabees of the World has been in the social limelight this week the major portion of the time. On Wednesday afternoon at the hall a class of seventy-one members was initiated the work being put on by delegations from the Hives at Oklahoma City, Pawnee, Okemah, Stillwater and Enid. At the close of the initiatory service the following program was given, after which refreshments were served and an hour spent informally.

Piano duet, Misses Jennings and Kate Miller.

Address of welcome to visiting Macabees, Mrs. Henry E. Dewey.

Response, Mrs. Haines, Augusta, Kas.

In the evening at the organization headquarters of Island Park a reception was tendered the clitors. The reception was largely attended and was a thoroughly enjoyable affair. The reception hall was prettily decorated with ferns and pointed plants and festoons of the national colors entwined with the lodge colors. Punch was served.

Every ship is a romantic object—except that we sell it.

The small merchant "honors with his envy" the big— but, to each, the problem of the hour is the same—the one big, inescapable, determining problem of publicity, which dwarfs other "store-worries," and, when solved, makes most of them disappear.

SEETHING WITH DISORDER

ANOTHER MUTINY REPORTED IN GREAT RUSSIAN FORTRESS

GUARDING THE FRONTIER

Familiar Earmarks of Revolutionary Participation

(By Associated Press)

St. Petersburg, June 30.—Late last night it was reported that serious disorders had broken out in the garrison of Osowice, one of the great fortresses defending the Polish frontier against German invasion. Owing to the fact that the office of the general staff was closed when the report became current and to the reticence of the military authorities, it has been impossible to obtain details of the reported mutiny. But an army officer intimated to the Associated Press that the affair was far more serious than any that has hitherto occurred.

Osowice is classed as a fortress of the first rank and is located 35 miles northwest of Bielsk. The press of St. Petersburg is without information as Osowice is practically devoid of civilian population.

The interpolation in parliament yesterday regarding the court martial of twenty-seven soldiers at Tiflis for fomenting disorders in the Ingrian regiment discloses another danger spot.

Other items in the revolutionary budget are a mutiny at Samara,

which bears the familiar ear marks of revolutionary participation and where

order has not yet been restored; the

shooting by revolutionary sympathizers of an officer of the mutinous artilers in the streets of Batoum, and the transfer under strong guards of

the whole of the eighteenth battery of the Vladikavkaz garrison to the military

fortress at Kars.

Emperor Nicholas is quoted as saying

yesterday that he had been so affected by the disloyalty of the pre-

obragensky regiment, which he had

so often honored by wearing its uniform, that he had been unable to sleep for two nights.

by the centrist, whose leaders he

Reve the situation is developing so

fast that no force should be lost in arming themselves with the majority of the lower house. It is difficult for the forecast of a vote on the resolution as party lines are more loosely drawn in the house than in the lower house, of Yermoloff and other leaders of the centrists, who are encroaching the sentiment of unattached congressmen, believe they have control of a majority.

In reply to an agreement regarding reported excesses in Kerch, in the Crimea, where martial law was proclaimed yesterday, the mayor of Kerch telegraphed that no disorder had taken place, but made no explanation of the establishment of martial law.
